"Apprentice Project" (Cohort Branding) – 20 pts

The purpose of this project is for your cohort to create a website that is illustrative of your cohort as a community and includes the information your cohort deems helpful. For example, would you want to include a link to the NJCU Academic Calendar? Perhaps your cohort wants to include a link to the textbooks or important resources? Maybe the list of the courses or dates for the Summer Institutes would be helpful? Would photographs from the Summer Institute week be fun? These are some ideas but the website is your cohort's project to create and develop.

The minimum requirements for the project include:

- Published website
- Name and logo for the cohort
- Cohort song/motto
- Names of cohort members and links to each student's website on the cohort website (photos optional)
- One-page information sheets for the 7 Leadership approaches

YOUR NAME:	Antoinette Pinder-Darling
CONTRIBUTION TEAM:	Music Team/Media Team
WEBSITE ADDRESS:	http://njcuedtech20.wix.com/njcuedtech
Description of Contributions	- Co-wrote the motto and song - Suggested having NJCU Blackboard added to the website.
Your STRENGTHS	- Strong organizational skills - Creative thinker
Your WEAKNESSES	A bit impatient about the editing process.
